

Name:

Workshop 4 Week 12

Exodus 19-40

The Bible Project

On God's side of the covenant He promised to protect and defend the Israelite people as His very own nation. What were the terms of this updated covenant for the Israelites?

What was God trying to restore that was lost in Eden through His request for a tabernacle to be built?

This week, will we do our part to physically visit with God (in His presence in the tabernacle) as He desires even if just for a brief time? Write a day and time down to visit with Him.

DISCUSSION: Why did God give such specific laws about cleanliness, sacrifices, the priesthood, etc. to the Israelites? Does He care about those things or does He only care about what's in our hearts?
